

Needing to Control Costs?

Schneider Electric Industrial Repair Services is your one-stop shop for high-quality, cost-effective service solutions.

Schneider Electric offers comprehensive Industrial Repair Services and solutions for any major manufacturer's equipment, at typically half the cost or less of replacing with new equipment. From our comprehensive testing and repair services, to our vast inventory of remanufactured components, to our proven modernization solutions, we have high-quality, cost-effective solutions to meet your needs and keep your facility reliable, productive, and green.

Our world class customer service is backed by:

- Over 50 years of repair experience with multiple brands.
- A highly trained technical/engineering staff.
- Only authorized service facility in North America for Schneider drives, soft starters & automation products.
- Dedicated repair process, resulting in minimal turnaround time.
- Responsive and accessible customer support, including a nationwide sales and distribution network.
- A comprehensive one-year warranty covering the entire unit, in addition to the replaced components.

As a single source provider, we minimize transaction costs and turnaround time for our customers. In addition, we streamline the purchasing process. Customers can include repairs for multiple brands on a single purchase order, which, in turn, simplifies their payment and warranty terms.

Benefits of Industrial Repair Services

- Cost Savings
- Quality
- One Vendor
- Comprehensive Warranty
- Quick Turnaround
- Environmentally Responsible

Life Is On

Schneider
Electric

Schneider Electric Industrial Repair Solutions delivers comprehensive service solutions for any major manufacturer's equipment.

Repair Services

Repair for many brands and over 450,000 different part numbers of virtually every type of drive, HMI, PLC, I/O, circuit card, servo motor and more. Repair and update is available for Schneider Electric automation products.

Modernize to the Latest Schneider Electric Platforms

As industrial systems around the world get older, a significant number are nearing the end of their useful life. Updating your aging installations with the latest technology now will help you improve your productivity and retain your competitive edge.

Advanced Shipment Exchange

Option available to receive refurbished products within 24 hours for immediate problem resolution and to send your defective item at a later date.

RUSH Service

Available for an additional fee, moves your repair to the front of the queue for faster service.

We service products from all major manufacturers and offer our customers the assurance of a quality job in a timely and cost-effective manner.

Remanufactured Equipment

Products repaired, refurbished and utilized as additional spares or immediate replacements. All carry a one-year warranty and are available for quick shipment.

Testing and Certification

Diagnostic services to determine if your spares inventory is working properly.

Repair Membership

A service plan available for repairs and solutions of industrial automation, controls, and drives tailored to meet your specific needs.

Scheduled Maintenance

Services customized to extend the life of your installed base and save you money.
